Why Should I Use Klara?

In this document, you will learn the benefits of using Klara to communicate with your doctor's office.

Why Should I Use Klara?

Klara connects you to your healthcare provider and streamlines your communications. You can send messages, files and images on Klara. There is no need to wait on hold and no questioning if your message was ever received. You do not need to worry about having to scan or fax a document to your doctor again; you can simply send it over Klara.
Many things you would normally need a phone call for can be done by simply sending a message, saving you a significant amount of time. You can also send messages regarding appointments, prescriptions and any other questions you may have.

If you have any questions regarding Klara, you can contact a Klara Team Member directly by emailing support@klara.com.
